

METCOR 71

Botanical Based NSF Food Approved Corrosion Preventative

PRODUCT DESCRIPTION

METCOR 71 is a USDA Certified BioBased Product. It is a botanical-based, environmentally friendly, corrosion preventative. This product is formulated with bio-renewable and bio-sustainable resources and is both bio-degradable and is chemically neutral. **METCOR 71** will protect all metal surfaces from moisture, high humidity and salt spray vapors. **METCOR 71** contains no petroleum oil or hazardous materials. This product is approved by NSF International for use in and around food processing areas. NSF Registration #163308.

BENEFITS

- ✓ Outstanding “wet-out” properties for uniform part coverage
- ✓ Penetrates and seals hard to get at metal surfaces
- ✓ Safe on steels, yellow, white and red metals
- ✓ Lubricates and cleans while protecting moving parts
- ✓ Protects parts during long-term storage and/or covered transit
- ✓ Heat treatable - ashless formulation
- ✓ Safe “GREEN” formulation is both environment and people friendly
- ✓ FOOD APPROVAL – H2
- ✓ Protective coating prevents “white rust” on galvanized or aluminum alloys

APPLICATIONS

- ✓ General long-term rust protection of all metals
- ✓ Dip tank cleaning and protection of small parts
- ✓ Protect hand tools and cutlery
- ✓ Lubricate moving mechanisms

Properties	
Appearance	Dark amber , clear liquid
Odor	Characteristic
Viscosity	41 S.U.S. @ 100°F
Specific Gravity	0.8850 to .08890 @ 70°F
Cloud Point	-12°C
Bio-Degradability	100%
Petroleum Oil	NONE

DIRECTIONS FOR USE

METCOR 71 is used as received and applied by roller, spray or dip methods.

PACKAGING: **METCOR 71** is available in 5-gallon pails, 55 gallon drums, 330 gallon totes and bulk
