

METKLEEN 2480

Fast Acting Neutral Rust Remover

Product Description:

METKLEEN 2480 is a neutral pH rust removing solution, which works quickly to remove oxidation on ferrous metals. Neutral pH provides a less irritating and less aggressive way to remove oxidation. **METKLEEN 2480** can be used in a spray and wipe off application, or in a heated recirculating immersion tank.

Product features:

- Formulated for industrial or personal use.
- Low use rates for most applications.
- Effective when used hot or at room temperature.
- Non-flammable
- Economical
- Neutral pH

Recommended Use Conditions:

METKLEEN 2480 is designed to be used as-is, but can be cut 1:1 with water for light rust removal. **METKLEEN 2480** is designed for temperatures ranging from room temperature to 150F in dip tank applications. When used in dip/immersion tanks it is best to have the bath recirculating to help remove rust on the interior of parts.

Typical Product Properties:

Appearance	Clear Colorless
pH, neat	6.8 – 7.2
Specific Gravity	1.07
Pounds per Gallon	8.92
