

FinWorks 150 STAMPING LUBRICANT

Line Description

Metalloid Corporation manufactures a complete line of high-performance fluids used in the manufacture of air conditioning coils, heat exchangers, and refrigeration coils. The Metalloid line includes ferrous and non-ferrous fin stamping, tube bending and expanding lubricants. Metalloid also manufactures process cleaners and vacuum pump oils.

Product Description

FinWorks 150 is a versatile light viscosity medium/heavy-duty evaporative fin stamping lubricant. The unique lubricity package of **FinWorks 150** draws a wide range of collar heights, ranging from 4 F.P.I. up to 22 F.P.I. **FinWorks 150** is virtually dry to the touch and will not interfere with brazing. **FinWorks 150** is multi-metal safe. Metalloid is looking to the future and is developing fluids that are compatible with the new Low Global Warming Potential refrigerants as well as maintaining compatibility with the Legacy refrigerants still used today.

Advantages

- Outstanding tool life and lubricity
- Outstanding wettability and water removal of condensate from the fin pack
- Virtually no residue and reduced application amounts
- Non-staining
- Odorless
- Low viscosity
- Refrigerant compatible with new Low GWP and legacy refrigerants
- Multi-metal safe
- Easily removed in aqueous wash systems
- Ash less residue

Specifications

Density, lbs. /gal.....6.76
Flash Point, °C (TCC)..... 190
Appearance.....Clear, light amber liquid

Application/Availability

FinWorks 150 is used as received. It may be dipped, wiped, rolled on or applied with applicator.

FinWorks 150 is available in 5-gal. Pails, 55-gal. Drums, 330-gal. Totes and bulk gallon quantities.
